What if you were about to become a grandmother for the first time and you discovered you were pregnant? What if you believed you conceived this child in a dream? What if you tried to end the pregnancy and failed? Gloria Geist's world is turned completely upside down when she discovers she is pregnant and she knows her husband can not be the baby's father. Her recurring dreams about a young girl who calls herself Earth Girl initiate a quest for understanding that leads her to question the nature of time and the possibility of reincarnation.

As she is exposed to mystic wisdom through the voice in her dreams, she learns, not only about herself, but also the many facets of family love and acceptance. Her journey of self-discovery ultimately connects her to the future in a way she could never have imagined.
