Muses of Terra (Codex Antonius) (Volume 2) Rob Steiner

Marcus Antonius Cordus thought he'd left his past behind when he escaped Terra six years ago. Namely, being Consular Heir of the disintegrating Roman Republic and sole carrier of the sentient alien Muse virus that once ruled the Republic. All he wants is to explore the universe with his mercenary friends and stay far away from Roman politics. But the Muse strain infecting him has different plans. Cordus begins to see ghosts from the past and hear voices when no one is near. He fears the Muses are attacking his mind and that his immunity is slipping. If he loses control he will become a slave to Muse plans to dominate humanity, just like his Antonii ancestors. Or worse: banishment from the mercenary family who loved him when no one else would. So when a new Muse strain invades Roman space—one even feared by the strain infecting Cordus—he is forced to choose between the freedom he's always wanted and stopping the apocalypse that he was born to prevent. MUSES OF TERRA is Book Two of the Codex Antonius and sequel to the exciting sci-fi/alternate history novel MUSES OF ROMA.
