Primary Mathematics Curriculum Guide (Fulton Study Guides) Harvey Blair, Pat Hughes

This is a curriculum guide that gives trainee teachers the opportunity to follow a tried and tested primary mathematics curriculum course. The text is easy to follow, up-to-date with good current practice and utilizes materials produced by the DfEE for teachers. It includes interactive tasks to enhance understanding, tasks to consolidate learning at the reader's own level and pace, a full bibliography for further reading, common misconceptions which the reader will find in children's work, and a detailed look at the National Numeracy Strategy (NNS) and the mathematics National Curriculum. The text will provide a firm foundation for teaching mathematics to primary school children and give the reader genuine confidence in their teaching. The text has been piloted by students following a distance learning primary PGCE and revised in line with their comments. The intention of the book is to provide secure subject knowledge for mathematics alongside an understanding of the ways in which children learn mathematics.

From reader reviews:

Myron Abbott:

Information is provisions for people to get better life, information today can get by anyone with everywhere. The information can be a know-how or any news even restricted. What people must be consider while those information which is inside the former life are hard to be find than now could be taking seriously which one is acceptable to believe or which one often the resource are convinced. If you obtain the unstable resource then you obtain it as your main information it will have huge disadvantage for you. All of those possibilities will not happen throughout you if you take Primary Mathematics Curriculum Guide (Fulton Study Guides) as your daily resource information.

Thomas Carroll:

Spent a free time for you to be fun activity to do! A lot of people spent their sparetime with their family, or their friends. Usually they accomplishing activity like watching television, about to beach, or picnic in the park. They actually doing same task every week. Do you feel it? Do you need to something different to fill your personal free time/ holiday? Can be reading a book could be option to fill your free of charge time/ holiday. The first thing that you will ask may be what kinds of reserve that you should read. If you want to try out look for book, may be the guide untitled Primary Mathematics Curriculum Guide (Fulton Study Guides) can be very good book to read. May be it might be best activity to you.

Gerri Pettit:

This Primary Mathematics Curriculum Guide (Fulton Study Guides) is great guide for you because the content that is full of information for you who else always deal with world and get to make decision every minute. This book reveal it details accurately using great manage word or we can state no rambling sentences inside it. So if you are read this hurriedly you can have whole info in it. Doesn't mean it only provides straight forward sentences but tough core information with lovely delivering sentences. Having Primary Mathematics Curriculum Guide (Fulton Study Guides) in your hand like keeping the world in your arm, facts in it is not ridiculous a single. We can say that no e-book that offer you world within ten or fifteen tiny right but this reserve already do that. So , this really is good reading book. Hey there Mr. and Mrs. occupied do you still doubt that?

Nancy Sherman:

What is your hobby? Have you heard which question when you got college students? We believe that that problem was given by teacher for their students. Many kinds of hobby, Everyone has different hobby. Therefore you know that little person similar to reading or as examining become their hobby. You must know that reading is very important along with book as to be the matter. Book is important thing to incorporate you knowledge, except your personal teacher or lecturer. You get good news or update concerning something by book. Amount types of books that can you go onto be your object. One of them is
