- Diversify your portfolio and increase your trading opportunities — trade across various financial instruments, including shares, foreign exchange, indices and commodities, within Australia and internationally
- Use stop loss orders and position sizing — manage your risk by knowing how much you stand to lose if you get a trade wrong, before you even open it
- Develop your trading strategy — analyse your trading behaviour, develop a trading plan and track your progress
- Work out short- and longer-term trading strategies — hold your positions open for only a few hours, or over several months
- Take advantage of short selling strategies — make profits in a falling market, or hedge your overall portfolio against short-term losses

Open the book and find:

- How much to leverage your trading account
