Igor Ljubuncic

Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux Igor Ljubuncic

Problem-Solving in High Performance Computing: A Situational Awareness Approach with Linux focuses on understanding giant computing grids as cohesive systems. Unlike other titles on general problem-solving or system administration, this book offers a cohesive approach to complex, layered environments, highlighting the difference between standalone system troubleshooting and complex problem-solving in large, mission critical environments, and addressing the pitfalls of information overload, micro, and macro symptoms, also including methods for managing problems in large computing ecosystems.

The authors offer perspective gained from years of developing Intel-based systems that lead the industry in the number of hosts, software tools, and licenses used in chip design. The book offers unique, real-life examples that emphasize the magnitude and operational complexity of high performance computer systems.

- Provides insider perspectives on challenges in high performance environments with thousands of servers, millions of cores, distributed data centers, and petabytes of shared data
- Covers analysis, troubleshooting, and system optimization, from initial diagnostics to deep dives into kernel crash dumps
- Presents macro principles that appeal to a wide range of users and various real-life, complex problems
- Includes examples from 24/7 mission-critical environments with specific HPC operational constraints

From reader reviews:

Ernie Swisher:

Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux can be one of your basic books that are good idea. Many of us recommend that straight away because this publication has good vocabulary that will increase your knowledge in language, easy to understand, bit entertaining but still delivering the information. The article author giving his/her effort to put every word into delight arrangement in writing Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux however doesn't forget the main point, giving the reader the hottest in addition to based confirm resource data that maybe you can be considered one of it. This great information can easily drawn you into new stage of crucial thinking.

Philip Raber:

The book untitled Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux contain a lot of information on it. The writer explains your ex idea with easy approach. The language is very straightforward all the people, so do not necessarily worry, you can easy to read it. The book was written by famous author. The author will take you in the new period of literary works. You can easily read this book because you can read more your smart phone, or gadget, so you can read the book within anywhere and anytime. In a situation you wish to purchase the e-book, you can start their official web-site and also order it. Have a nice go through.

Terrie Newlin:

E-book is one of source of knowledge. We can add our understanding from it. Not only for students but also native or citizen need book to know the update information of year to year. As we know those ebooks have many advantages. Beside many of us add our knowledge, can also bring us to around the world. By the book Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux we can have more advantage. Don't that you be creative people? Being creative person must prefer to read a book. Merely choose the best book that acceptable with your aim. Don't be doubt to change your life by this book Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux. You can more appealing than now.

Rod Reese:

A number of people said that they feel fed up when they reading a publication. They are directly felt it when they get a half regions of the book. You can choose the particular book Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux to make your own personal reading is interesting. Your own skill of reading ability is developing when you just like reading. Try to choose very simple book to make you enjoy you just read it and mingle the impression about book and looking at especially. It is to be initially opinion for you to like to open up a book and study it. Beside that the e-book

Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux can to be your brand-new friend when you're sense alone and confuse in what must you're doing of these time.
