Water in the Middle East and in North Africa: Resources, Protection and Management

Water in the Middle East and in North Africa: Resources, Protection and Management

This volume presents the latest research related to the current water situation, as well as its significance for the peaceful coexistence of the neighbouring countries. The book focuses on crucial topics: water resources, water protection, water management and water as a source of conflict. Topics such as sewage disposal and soil protection, as well as the transfer of environmental technology are also discussed.
