Skip the line at the front door! Learn to detect the hidden social media side doors that provide instant, privileged access to the top influencers and decision-makers in any industry

Access is one of the great unexamined issues in social media. Barriers used to be everywhere, in the form of gatekeepers and rules that governed access to people with power, authority, budgets, expertise, and fame. But social media side doors--alternate avenues of access through social media--have opened all around us, and few have noticed.

Through them, we can engage with top business executives, thought leaders, and tastemakers. We have the unique ability to draw the attention of people and organizations that are bombarded every day by countless competing traditional requests for consideration.

In *The Social Media Side Door*, social media strategist Ian Greenleigh reveals how to walk right through the social media side doors that lie hidden in plain sight--to forge valuable relationships, create business opportunities, raise your thought leader profile, or land the perfect job. It will enable readers to expand their own means of access to those they wish to engage with, and the ways in which this access--in both directions--can be leveraged to unlock a new level of ROI.
