## **Utopia of Usurers** G.K. Chesterton, Aidan Mackey

An engaging work sure to appeal to both scholars and students for the depth of its thought and the freshness of its claims, this is a two-part book by one of the 20th century's greatest writers. The first part is a coherent analysis of the theory, effects, and claims of capitalism. The second is a lengthy collection of articles from Chesterton's vast journalistic output. The author challenges the fundamental tenets of capitalism without favoring socialism or Marxism by providing a philosophical analysis of the pitfalls, drawbacks, and falsehoods regarding capitalism and its inevitability. This is must reading for any serious investigation into anti-capitalist thought. It is also an exemplary text of how Christian principles and thinking apply to the socioeconomic world.
