Categorical Data Analysis With Sas and Spss Applications Bayo Lawal, H. Bayo Lawal

This book covers the fundamental aspects of categorical data analysis with an emphasis on how to implement the models used in the book using SAS and SPSS. This is accomplished through the frequent use of examples, with relevant codes and instructions, that are closely related to the problems in the text. Concepts are explained in detail so that students can reproduce similar results on their own. Beginning with chapter two, exercises at the end of each chapter further strengthen students' understanding of the concepts by requiring them to apply some of the ideas expressed in the text in a more advanced capacity. Most of these exercises require intensive use of PC-based statistical software. Numerous tables with results of analyses, including interpretations of the results, further strengthen students' understanding of the material.

Categorical Data Analysis With SAS(R) and SPSS Applications features:

*detailed programs and outputs of all examples illustrated in the book using SAS(R) 8.02 and SPSS on the book's CD;

*detailed coverage of topics often ignored in other books, such as one-way classification (ch. 3), the analysis of doubly classified data (ch. 11), and generalized estimating equations (ch. 12); and

*coverage of SAS(R) PROC FREQ, GENMOD, LOGISTIC, PROBIT, and CATMOD, as well as SPSS PROC CROSSTABS, GENLOG, LOGLINEAR, PROBIT, LOGISTIC, NUMREG, and PLUM.

This book is ideal for upper-level undergraduate or graduate-level courses on categorical data analysis taught in departments of biostatistics, statistics, epidemiology, psychology, sociology, political science, and education. A prerequisite of one year of calculus and statistics is recommended. The book has been class tested by graduate students in the department of biometry and epidemiology at the Medical University of South Carolina.

From reader reviews:

Linda Haag:

This Categorical Data Analysis With Sas and Spss Applications book is just not ordinary book, you have after that it the world is in your hands. The benefit you obtain by reading this book is definitely information inside this e-book incredible fresh, you will get info which is getting deeper anyone read a lot of information you will get. This specific Categorical Data Analysis With Sas and Spss Applications without we understand teach the one who reading through it become critical in contemplating and analyzing. Don't possibly be worry Categorical Data Analysis With Sas and Spss Applications can bring if you are and not make your tote space or bookshelves' come to be full because you can have it with your lovely laptop even cell phone. This Categorical Data Analysis With Sas and Spss Applications having good arrangement in word and also layout, so you will not sense uninterested in reading.

Michael Counts:

As people who live in typically the modest era should be upgrade about what going on or details even knowledge to make these keep up with the era and that is always change and advance. Some of you maybe may update themselves by reading books. It is a good choice for you personally but the problems coming to you is you don't know which one you should start with. This Categorical Data Analysis With Sas and Spss Applications is our recommendation to help you keep up with the world. Why, as this book serves what you want and wish in this era.

Edna Spalding:

People live in this new day time of lifestyle always make an effort to and must have the time or they will get wide range of stress from both day to day life and work. So , if we ask do people have free time, we will say absolutely yes. People is human not just a robot. Then we ask again, what kind of activity do you possess when the spare time coming to a person of course your answer will unlimited right. Then do you ever try this one, reading publications. It can be your alternative with spending your spare time, often the book you have read will be Categorical Data Analysis With Sas and Spss Applications.

Carlos Mendoza:

As a university student exactly feel bored for you to reading. If their teacher asked them to go to the library in order to make summary for some publication, they are complained. Just small students that has reading's heart or real their leisure activity. They just do what the instructor want, like asked to the library. They go to there but nothing reading critically. Any students feel that examining is not important, boring along with can't see colorful pics on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Categorical Data Analysis With Sas and Spss Applications can make you sense more interested to read.
