Black Jag, Book One Raul VicMoran and Angela Kalucian will not tolerate what Colony is doing to their kind, the jaguars. One of the leaders in the community is making arrangements with the humans to sell their services as mercenaries. Hired killers. To hunt, capture and eliminate someone else's prey. The level of humiliation is too strong to endure. After fleeing Colony, Raul and his two male littermates travel through the mountains, south into the desert and finally the jungle as they work their way to Central America, where the only other known colony of jaguars live. Raul and Angela's love for each other blossoms during their trials and ordeals while traveling. Angela also comes to respect all three VicMoran males to the point where she feels protective of them. Raul knows in his heart, without any doubt, Angela is his female. No one will ever challenge him for her. But for one night, in the complete blackness of the heart of the jungle, all three VicMoran males will share Angela, truly bonding the four of them together for life. Reader Advisory: These cat-shifters aren't your everyday cuddly tabbies. The males are wild and feral; the females are strong and won't roll over to have their tummies rubbed. They make leopards seem domesticated. If you want your loving untamed and fierce, then come take a ride on the wild side...if you can stand the heat.
