**Content and Justification: Philosophical Papers** Paul A. Boghossian

*Content and Justification* presents a series of essays by Paul Boghossian on the theory of content and on its relation to the phenomenon of a priori knowledge.

**Part one** comprises essays on the nature of rule-following and its relation to the problem of mental content; on the intelligibility of eliminativist views of the mental; on the prospects for a naturalistic reduction of mental content; and on the currently influential view that meaning is a normative notion.

**Part two** includes three widely discussed papers on the phenomenon of self-knowledge and its compatibility with externalist conceptions of mental content.

**Part three** concerns the classical, but ill-understood, phenomenon of knowledge that is based upon knowledge of meaning or conceptual competence.

Finally, **part four** turns its attention from general issues about mental content to an account of a specific class of mental contents. It contains two widely discussed papers on the nature of color concepts and color properties.
