Instant Controlled Pressure Drop (D.I.C.) in Food Processing: From Fundamental to Industrial Applications (Food Engineering Series)

Instant Controlled Pressure Drop (D.I.C.) in Food Processing: From Fundamental to Industrial Applications (Food Engineering Series)

The use of Instant Controlled Pressure Drop (D.I.C.) in food processing operations is relatively new when compared with other conventional or innovative technologies. In addition to existing applications such as drying, texturing and decontamination, D.I.C. technology has been shown to be highly appropriate for an ever-growing number of uses and with a wide range of raw materials. Some examples are post-harvesting and drying of fruits and vegetables; cereal steaming; extraction of essential oils and active molecules, where D.I.C. may be combined with supercritical fluids, ultrasound or microwaves; and the hydrolysis of cellulose and the transesterification of lipids.

This book presents a complete picture of current knowledge on the use of D.I.C. in food processing, preservation and extraction. It provides a comprehensive compilation, summarizing the fundamentals of D.I.C. technology, current developments, new research findings, safety precautions and environmental impacts. It will also contribute to widening the scope of D.I.C. technology through the inclusion of some much-needed examples of industrial applications. Each chapter of the book is complementary to the other chapters. They all are based on presentations of reputed international researchers and address the latest progress in the field.

Professor Karim ALLAF heads a research team working on the intensification of eco-processes at La Rochelle University. He is a physicist and an expert in the thermodynamics of “instantaneity”.

Dr. Tamara ALLAF is the R&D manager of ABCAR-DIC Process Company. A chemical engineer, she obtained her Ph.D. in innovative extraction processes.

From reader reviews:

Kenneth Vargas:

This Instant Controlled Pressure Drop (D.I.C.) in Food Processing: From Fundamental to Industrial Applications (Food Engineering Series) book is just not ordinary book, you have after that it the world is in your hands. The benefit you have by reading this book is information inside this reserve incredible fresh, you will get details which is getting deeper you actually read a lot of information you will get. This specific Instant Controlled Pressure Drop (D.I.C.) in Food Processing: From Fundamental to Industrial Applications (Food Engineering Series) without we comprehend teach the one who looking at it become critical in imagining and analyzing. Don't possibly be worry Instant Controlled Pressure Drop (D.I.C.) in Food Processing: From Fundamental to Industrial Applications (Food Engineering Series) can bring if you are and not make your case space or bookshelves' turn into full because you can have it inside your lovely laptop even phone. This Instant Controlled Pressure Drop (D.I.C.) in Food Processing: From Fundamental to Industrial Applications (Food Engineering Series) having great arrangement in word as well as layout, so you will not feel uninterested in reading.

Katie Barry:

Do you certainly one of people who can't read gratifying if the sentence chained from the straightway, hold on guys this aren't like that. This Instant Controlled Pressure Drop (D.I.C.) in Food Processing: From Fundamental to Industrial Applications (Food Engineering Series) book is readable by you who hate the perfect word style. You will find the details here are arrange for enjoyable looking at experience without leaving perhaps decrease the knowledge that want to offer to you. The writer regarding Instant Controlled Pressure Drop (D.I.C.) in Food Processing: From Fundamental to Industrial Applications (Food Engineering Series) content conveys prospect easily to understand by a lot of people. The printed and e-book are not different in the articles but it just different by means of it. So , do you even now thinking Instant Controlled Pressure Drop (D.I.C.) in Food Processing: From Fundamental to Industrial Applications (Food Engineering Series) is not loveable to be your top checklist reading book?

Glenn Remaley:

Are you kind of active person, only have 10 or perhaps 15 minute in your time to upgrading your mind proficiency or thinking skill actually analytical thinking? Then you are having problem with the book as compared to can satisfy your small amount of time to read it because all of this time you only find e-book that need more time to be read. Instant Controlled Pressure Drop (D.I.C.) in Food Processing: From Fundamental to Industrial Applications (Food Engineering Series) can be your answer as it can be read by you who have those short spare time problems.

Michael Aldrich:

That book can make you to feel relax. This book Instant Controlled Pressure Drop (D.I.C.) in Food

Processing: From Fundamental to Industrial Applications (Food Engineering Series) was bright colored and of course has pictures on the website. As we know that book Instant Controlled Pressure Drop (D.I.C.) in Food Processing: From Fundamental to Industrial Applications (Food Engineering Series) has many kinds or genre. Start from kids until teens. For example Naruto or Private investigator Conan you can read and believe that you are the character on there. Therefore , not at all of book tend to be make you bored, any it can make you feel happy, fun and rest. Try to choose the best book to suit your needs and try to like reading which.
