## Transforming Provincial Politics: The Political Economy of Canada's Provinces and Territories in the Neoliberal Era (Studies in Comparative Political Economy and Public Policy)

Over the past thirty-five years, Canada's provinces and territories have undergone significant political changes. Abandoning mid-century Keynesian policies, governments of all political persuasions have turned to deregulation, tax reduction, and government downsizing as policy solutions for a wide range of social and economic issues. *Transforming Provincial Politics* is the first province-by-province analysis of politics and political economy in more than a decade, and the first to directly examine the turn to neoliberal policies at the provincial and territorial level.

Featuring chapters written by experts in the politics of each province and territory, *Transforming Provincial Politics* examines how neoliberal policies have affected politics in each jurisdiction. A comprehensive and accessible analysis of the issues involved, this collection will be welcomed by scholars, instructors, and anyone interested in the state of provincial politics today.
