**Numerical Optimization (Springer Series in Operations Research and Financial Engineering)** Jorge Nocedal, Stephen Wright

"Numerical Optimization" presents a comprehensive and up-to-date description of the most effective methods in continuous optimization. It responds to the growing interest in optimization in engineering, science, and business by focusing on the methods that are best suited to practical problems. Drawing on their experiences in teaching, research, and consulting, the authors have produced a textbook that will be of interest to students and practitioners alike. Each chapter begins with the basic concepts and builds up gradually to the best techniques currently available. Because of the emphasis on practical methods, as well as the extensive illustrations and exercises, the book is accessible to a wide audience. It can be used as a graduate text in engineering, operations research, mathematics, computer science, and business. It also serves as a handbook for researchers and practitioners in the field. Above all, the authors have strived to produce a text that is pleasant to read, informative, and rigorous - one that reveals both the beautiful nature of the discipline and its practical side.

MMOR, Mathematical Methods of Operations Research, 2001 observes: "The book looks very suitable to be used in an graduate-level course in optimization for students in mathematics, operations research, engineering, and others. Moreover, it seems to be very helpful to do some self-studies in optimization, to complete own knowledge and can be a source of new ideas...I recommend this excellent book to everyone who is interested in optimization problems."

### **From reader reviews:**

#### **Steven Hackett:**

Do you certainly one of people who can't read pleasant if the sentence chained from the straightway, hold on guys that aren't like that. This Numerical Optimization (Springer Series in Operations Research and Financial Engineering) book is readable simply by you who hate those straight word style. You will find the facts here are arrange for enjoyable looking at experience without leaving perhaps decrease the knowledge that want to give to you. The writer associated with Numerical Optimization (Springer Series in Operations Research and Financial Engineering) content conveys the idea easily to understand by a lot of people. The printed and e-book are not different in the content material but it just different in the form of it. So , do you nonetheless thinking Numerical Optimization (Springer Series in Operations Research and Financial Engineering) is not loveable to be your top record reading book?

#### **Rosa Rodriguez:**

Spent a free the perfect time to be fun activity to perform! A lot of people spent their down time with their family, or their own friends. Usually they undertaking activity like watching television, gonna beach, or picnic in the park. They actually doing ditto every week. Do you feel it? Will you something different to fill your own personal free time/ holiday? May be reading a book is usually option to fill your free of charge time/ holiday. The first thing that you'll ask may be what kinds of reserve that you should read. If you want to consider look for book, may be the guide untitled Numerical Optimization (Springer Series in Operations Research and Financial Engineering) can be great book to read. May be it is usually best activity to you.

#### **Maria Couch:**

Numerical Optimization (Springer Series in Operations Research and Financial Engineering) can be one of your starter books that are good idea. Most of us recommend that straight away because this reserve has good vocabulary that will increase your knowledge in vocabulary, easy to understand, bit entertaining but still delivering the information. The copy writer giving his/her effort to get every word into joy arrangement in writing Numerical Optimization (Springer Series in Operations Research and Financial Engineering) although doesn't forget the main level, giving the reader the hottest along with based confirm resource info that maybe you can be certainly one of it. This great information can certainly drawn you into new stage of crucial pondering.

#### **Ronda Powers:**

Are you kind of stressful person, only have 10 as well as 15 minute in your morning to upgrading your mind talent or thinking skill actually analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your short time to read it because this time you only find book that need more time to be study. Numerical Optimization (Springer Series in Operations Research and Financial Engineering) can be your answer since it can be read by an individual who have those short spare time

problems.
